

Bukkehave™

Providing Vehicles for International Projects

**The Bukkehave team is your partner for fleet
solutions in emerging markets.**

Global Coverage

The common thread between all of our customers is their need for a fleet solution, the need for someone who can deliver fleets of vehicles, trucks, maintenance, facilities, training, parts, or even a full fledged fleet operation to their projects in remote areas of the world. Without unique experiences, capabilities and manufacturers' support, this is where we step in. This is our expertise...partnering with international organizations delivering fleet solutions for their projects in emerging markets.

Government & Military Projects

Bukkehave is a government and military service provider, delivering support to programs and tasks required in emerging markets and post-conflict countries.

Mining, Oil & Gas industry

Bukkehave provides maximum value with specialized solutions for tackling the challenges commonly faced by mining and exploration companies.

United Nations

Bukkehave has maintained an industry-leading ability to service the United Nations and its agencies by offering a full range of export products for projects in emerging markets.

Construction Industry

With over 90 years of experience in serving international organizations in emerging markets, we deliver customized fleet solutions to companies that operate and manage international construction projects in emerging markets.

Fleet Support

We offer customized driver and maintenance training, along with workshop supervision and inventory control.

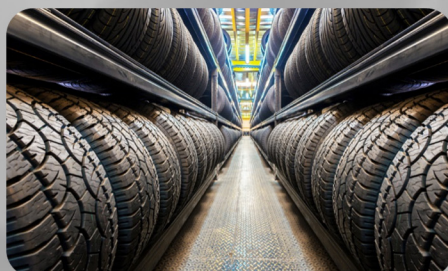

Bulk Parts & Supplies

Bukkehave is a proven and reliable supplier of genuine parts across reputed American, Japanese and European brands.

- Parts · Tires · Oil & Lubricants
- Batteries · Accessories

We provide direct access to over a million parts from regional stocking locations of major manufacturers.

Vehicles for your next project

Bukkehave specializes in delivering high quality vehicle fleet solutions to some of the world's most remote areas.

Our core business is tailoring the right solution for your project, delivering vehicles, trucks and a variety of equipment from stock or straight off the assembly line – and we specialize in building the right conversion for the job.
